NSF Pursuit, Inc. is dedicated to providing our customers with the best possible solutions for retrieving NSF Checks.

We know successful businesses dedicate their time to increasing their revenues, not worrying about collecting past sales.

What our customers have to say:

“Up until the time we were introduced to NSF Pursuit, we had been collecting our bad checks and not doing that too successfully. Because we run a large summer camp, that seems to be the time when returned checks increased. Since we started using NSF Pursuit, there has been a considerable increase in the collection of these items. Our CPA firm was very pleased when they learned of a change in the way we did business when it came to collecting return checks. This change has freed up our site directors and accounting people to better use their time in those areas where their skills are most needed. We are continually pleased with the excellent customer service we receive.”
